.SYNOPSIS...Well above normal temperatures will continue through Monday as high pressure builds over the area. Monsoon **moisture** will start to seep in from the southeast early next week, bringing chances for showers and thunderstorms along with slightly cooler but more humid conditions, especially for areas south and east of Las Vegas.

&&

.AVIATION...For McCarran...Southerly winds around 10 **kts** to continue through the night **backing** slightly to the southeast and decreasing after sunrise. Winds this afternoon and tonight will be similar to yesterday following typical **diurnal** trends.

.UPDATE...Areas of **smoke** likely from the Erskine Fire near Lake Isabella, CA will continue to spread throughout San Bernardino, Clark, and southern Mohave Counties. Winds are expected to remain fairly light through much of the day, so **smoke** should stick around through the afternoon. Just a few changes to add **smoke** to the grids, but no other updates needed.
